Government Training Institute (GTI) was founded in 2003 to address the needs of law enforcement and government agencies throughout the United States with research based training. GTI's courses contain a cooperative curriculum base and ongoing research from the staff with 400 years of operational military and law enforcement experience.

GTI's new "Center of Excellence" is located in Denmark, South Carolina and is situated on 44 acres, which includes 22 acres of wooded ground attached to the primary training facility. GTI's 196,000 sq. ft. Denmark complex includes administrative offices, classrooms, indoor simulation area for close quarter battle, video fire arms simulator, and much more. Approximately 17 miles from the center of excellence is GTI's Joint Operation Center (JOC), a 300,000 square foot nuclear fuel reprocessing station on over 100 acres that GTI has converted into a special operations forces training center.

GTI is a registered trading partner with the federal government and accepts contracts from government agencies and all branches of the military. Both of GTI's facilities, Joint Operations Center (JOC) & Center of Excellence may be rented for your private training needs. The facilities may be rented on a daily, weekly or monthly basis. GTI believes our competencies are aligned with current and future needs of our customers security priorities. These competencies also address facilities and/or training that enhance city, county, state and federal government services.

For the Government Contractor

GTI Facility to Host Real-World Military Scenarios

Operational Medicine

GTI and Medical College of Georgia (MCG) have announced a teaming agreement designed to advance operational medicine competencies and expand tactical medical training deliverables.

The agreement offers GTI's South Carolina facilities to the Medical College of Georgia (MCG) and helps GTI expand current military and law enforcement training offerings.

GTI and MCG will jointly develop new curriculum based on government performance gaps and other organizational needs. Subject Matter Experts (SMEs) from both organizations will update relevant curricula to ensure students receive the most current information available across the spectrum of training delivered through this teaming agreement.

The first MCG training event at GTI's Center of Excellence in South

Carolina is slated for October 2009.

- **October 21-22, 2009**
- **October 27-30, 2009**

About Medical College of Georgia (www.mcgcom.com)

Medical College of Georgia (MCG) is the 13th-oldest continuously operating medical school in the United States third-oldest in the Southeast. The Center of Operational Medicine (COM) falls under the direction of the Department of Emergency Medicine at the Medical College of Georgia, an established and recognized medical institution. The COM is comprised of experienced physicians, physician assistants, and paramedic instructors, several of whom are prior U.S. military special operations active duty service members.

GTI Facilities Overview

Statement of Capabilities
